ULTRA BOOST

Plaster Recessed Downlight LED - Square

Premium Plaster light fixture which allows for a seamless and trimless installation. Ultra Boost is comprised of aluminum and gypsum, an abundant and stable mineral found in the Earth's crust. We manufacture a solid level 5 plaster finish around the aperture opening, eliminating the need for a mud-in ring. Our two-step application is minimum labor with high level aesthetics. The adjustable light source levitates in powder coated, double pane aluminum housing to conceal all wiring. It can be positioned recessed or flush with the aperture opening. It is available in square and round.

LED lighting engine is high performance, low power that provides outstanding reliability and color quality/consistency. 2700K, 3000K, 3500K, 4000K color temperatures are available with 95 CRI. Warm dim and tunable white are also available.

- Life Rated for 40,000 hours at 70% lumen maintenance
- All testing reports are based on published industry procedures

Quick Info

Application New Construction / Remodeling		
Delivered Lumens 1250 lm (13W)		Color Quality 95 CRI, 2-step SDCM
Color Temperature 2700K 3000K 3500K	Warm Dim Option 1800K-3000K 940 lm (13W) Tunable White Option 2700K-6500K 910 lm (13W)	Light Distribution General Wall Wash
Input Voltage 36Vdc		Dimming TRIAC/ ELV
Trims Gypsum Flangeless (seamless)	Material Aluminum - powder coated black Gypsum	Adjustability 30° Max
Housing Ratings IC Rated / Air Tight / CCEA		Module Ratings Wet Location
Guarantee 40,000 hrs 3 years		Additional Dimming Options 0-10 / DALI Dimming / Lutron EcoSystem

FINISH	GYPSUM/SEAMLESS		
MATERIAL	Aluminum - powder coated black		

Product Features

- Revolutionary flush mounted, trimless & seamless design
- Made out of Environmentally Friendly Plaster Materials
- Energy efficient LED light engines
- Dimmable with a variety of commonly used drivers
- Fixtures can be used with all Smart House Systems such as Lutron, Vantage, Control 4, Crestron and others
- Wet Location rated
